Welcome to NYRx, the Medicaid Pharmacy Program

NEW YORK STATE | Department of Health | Medicaid NYRx

The New York State Medicaid Pharmacy program, NYRx, covers medically necessary FDA approved prescription and non-prescription drugs for Medicaid members. Prescription drugs require a prescription order with appropriate required information. Non-prescription drugs, often referred to as Over-the-Counter or OTC drugs, require a fiscal order (a fiscal order contains all the same information contained on a prescription). Certain drugs/drug categories require the prescribers to obtain prior authorization. Information on this benefit can be found in the New York State Medicaid [State Plan Amendment](#).

Beginning April 1, 2023, Medicaid members enrolled in mainstream Managed Care (MC) plans, Health and Recovery Plans (HARPs), and HIV-Special Needs Plans (SNPs) will have their [pharmacy benefits transitioned](#) to NYRx, the Medicaid Pharmacy program. The transition will not apply to members enrolled in Managed Long-Term Care plans (e.g., PACE, MAP, and MLTC), the Essential Plan, or Child Health Plus.

Pharmacy program and billing policy and other pharmacy related information can be found in the [NYS MMIS Pharmacy Provider Manual](#) and the Department's [Medicaid Update](#). You may also contact us at NYRx@health.ny.gov or (518) 486-3209 for Medicaid pharmacy policy related questions.

For more information and copies of letters sent to pharmacists and prescribers, please see Pharmacy Provider Communications below.
