

Provider Alert: Behavioral Redesign Billing
02/27/2018
Important Notification for Providers:
Rendering Provider Reminder

The rendering provider's NPI can be reported in either the header level (2310B) or the detail line level (2420A) of a claim. If the NPI is reported at the header level, the NPI will apply to each detail line -- unless the detail line(s) has a different rendering provider reported. Some redesign claims require a line level rendering NPI on each detail line. A claim, for example, that includes services provided by multiple providers must include a rendering NPI at each detail level (2420A).

For more information on the code/services that require a line level rendering NPI please visit: http://bh.medicaid.ohio.gov/Portals/0/Providers/Supervisor-Rendering-Ordering-Fields_12012017.xlsx

Providers may contact the Provider Customer Service Center at UnitedHealthcare Community Plan of Ohio at 800-600-9007 with any questions or concerns about this message.

You may also contact Optum Network Management via email at OhioNetworkManagement@Optum.com.
